

## David 'BOONY' Boon Helps Globe BD Set Another Record

The 'short, backward square' from Tasmania was a popular guest speaker at Globe BD's recent Annual Client Function. He regaled the audience with stories from on and off the field during his time in the Australian Cricket Team.

Boony also had a message for all of us - to stick at what we want until we get it and then do it well. He spoke highly of his mentor Jack Simmons, who encouraged the young David. But as we know, the mentor can do only so much. In life, as in business, it is up to the individual to stay the distance and reach the chosen pinnacle. One commentator wrote of Boony's "singular determination" - something we all need if we are to succeed.

Preceding Boony's address was a representative from Princess Margaret Hospital, there to remind us of the importance of the day - a fundraiser for seriously ill children.

Following our guest speaker was the usual auction of sporting memorabilia - including one of the famous 'talking boonies'. Funds raised this year have brought the total amount donated to PMH to over \$31,000. This success was only achieved through your generosity - thank you very much.
